

OBESITY AND METABOLISM JOURNAL: 20th ANNIVERSARY

**Cover of the first issue
"Obesity and Metabolism."
Vol. 1, No. 1 (2004)**

The cover features a painting by Kustodiev B.M. "Merchant's Wife at Tea", 1918 (paintings by artists on the covers became a 'calling card' for the journal).

Achievements:

- **78 issues of the journal**
- **1033 articles**
- **Scopus indexing since 2016**
CiteScore 2022 = 1.1
SJR 2022 = 0.155 (Q4)
SNIP 2022 = 0.388

On the eve of the 100th anniversary of the National Medical Research Centre for Endocrinology, we celebrate 20 years since the publication of the first issue of Obesity and Metabolism.

The aim of the new journal was to integrate the efforts of a wide range of specialists in the study of the etiology, pathogenesis, early diagnosis, prevention and treatment of obesity.

For 20 years, the journal has successfully fulfilled its mission and continues to bring together specialists in the field of obesity prevention and therapy.

Thanks to the dedicated and selfless work of the editorial team, Profs. Tatiana Ivanovna

Romantsova, Ekaterina Alexandrovna Pigarova, Candidate of Medical Sciences Svetlana Alexandrovna Butrova, the journal develops in accordance with the world trends and innovations.

In accordance with the world trends and innovations in the sphere of scientific-publishing activity, the journal remains respected and attractive for readers, specialists and authors all over the world.

Since 2012, the journal has been online and since 2016 it has been indexed in Scopus, and its rating and recognition in the medical community continues to grow.

I am confident that in the future the journal will maintain and multiply its achievements and remain one of the leading journals in the field of endocrinology.

Well done and way to go!
